

Colocation Cabinets: DL Custom

DL Custom has dedicated design, engineering, manufacturing, professional services team that are hard at work delivering customized pre-configured, pre-integrated, or completely new custom cabinets, all with decreased lead time and cost and increased reliability and quality, allowing data centers to streamline customization and avoid costly, unsafe field modifications. Made in Canada. 

The Co-Location Cabinet offers superior security for individual client/server applications. These enclosures are configured to be compatible with most server manufacturers. They are available with 2, 4, 6 or 8 doors. Two depths are available, 36" and 42". Constructed of 14-gauge welded steel frame; 16-gauge doors and side panel.
