

## DL Custom Outdoor Enclosures

DL Custom outdoor enclosures are designed to house electrical, electronic, hydraulic, or pneumatic controls and instruments

### Features

- DL Custom outdoor enclosures provide heavy-duty construction to provide protection from dirt, dust, oil, and water.
- DL Custom outdoor enclosures are built to NEMA 4 specifications to provide protection against solid objects such as falling dirt, circulating dust, airborne dust, and windblown dust.
- 19" rack mount configurations are available.
- OPTIONAL - 800, 1500, 2500 or 3200 BTU/HR Cooling Capability

### Construction

- Formed 14-gauge steel.
- Smooth, continuously welded seams, without knockouts, cut-outs, or holes.
- Oil resistant gaskets are permanently secured.
- Includes removable inner panels formed from 12-gauge steel, mounted to the back and sides of the enclosure interior.
- Collar studs are provided for mounting inner panels.
- A bonding stud is provided on the door and a grounding stud is provided in the enclosure for each door.
- Indoor or Outdoor (NEMA 4) Applications
- Suitable for Wall, Pole, or Floor-mounting
- Powder Coated Steel
- Made in Canada

### Compliance and certifications

- UL 60950-1 and CSA
